OUR NAME

Upon first reference: **Virginia Tech Corporate Research Center**
Acceptable version after first reference: **VTCRC**

OUR TAGLINE

Growing businesses that matter

OUR MISSION

To develop a growing, prestigious research park for high-technology companies. In collaboration with Virginia Tech, we advance the research, educational, and technology transfer missions of the university.

ABOUT THE VTCRC

Nestled in the heart of Virginia's Technology Corridor and adjacent to the Virginia Tech (VT) campus, the Virginia Tech Corporate Research Center (VTCRC) is home to over 185 research technology and support companies. Our 230-acre park is located in a beautiful mountain setting with easy access to the metropolitan areas of northern Virginia and the nation's capital. An expansion on the northwest side of the park provides enough land to construct 16 buildings in addition to the 35 single- and multi-tenant buildings currently on-site. The companies located at the VTCRC employ over 3,300.

WE ARE

1

A for-profit high-technology research and development park adjacent to Virginia Tech

2

An economic development driver of the economy by creating and attracting companies that matter

3

A program to help transfer intellectual property from the university to the private sector

4

An innovation district and creative hub for technological and social networking

OUR OFFICIAL SPOKESPERSONS

Joe Meredith, Ph.D.
President/CEO

Dawn Myers, CPM
Chief Operating Officer

RECOGNITIONS

Named 'Outstanding Research and Science Park' by the Association of University Research Parks (AURP). We are 1 of only 23 international members of the 'Academy of Outstanding Research Parks'
